

# Assignment 01 dreamCatching

## DUE OCT 31 BEGINNING OF CLASS

Aby Warburg's "mnemosyne" from the 1920s.

1. Collect at least 10 images or text that will inspire your project on comfort for the semester.
2. Put these images in a folder on your computer.
3. Bring this computer to class on Oct. 31st, 2023.

Use common file formats:

images (jpg, png, .gif)

text (.txt, .doc)

Read the next page if you aren't sure how to start.

Each artifact can communicate bits of different ideas. Try to collect a variety.

Maybe it's a photo from your fieldtrip.

Maybe it's an image of a painting.

Maybe it's an image of an object.

Maybe it's a text from a novel.

Maybe it's a text from your crush.

Maybe it's a text from a poem.

Maybe it's an image from a scene of a movie.

Maybe it's an image of a texture.

Maybe it's an image of a place.

Maybe it's an image of a shape.

Maybe it's an image that describes a feeling.

Maybe it's an image that describes a material.

Maybe it's an image that describes size.

Maybe it's an image that describes color.

Maybe it's an image that describes a quality of light.

Maybe it's an image that describes a style.

Maybe it's a picture of your dog.

When in doubt, just add it to the collection!

They will become the basis for your AI generations in Workshop 01.
